

SOCIOPATHIC MIXTAPE, VOL. III

After taking a survey of what method of delivery for band information people preferred – the supplemental PDF file which accompanied Volume 1, or having each band’s information on a separate Bandcamp “track” page as utilized on Volume 2 – it was determined the majority of individuals & bands deemed it easier to acquire the information vis-à-vis method #2.

Therefore, in order to find out information about all 81 bands featured on Sociopathic Mixtape, Vol. 3, it’s as simple as going to the new mixtape’s main web address (where you downloaded this package from), then clicking on any individual track name; this will bring you to a unique page where you’ll be able to see album artwork, detailed information about the band in question, and pertinent links to the band’s social media sites, merch sites, labels, blogspots, & more.

If you have any additional questions about how to go about this process, please do not hesitate to send us a private message on Facebook, through the email system on Bandcamp, or by emailing us at the “main” Sociopathic Sound email address, which can be found below. Thank you and we sincerely hope you enjoy the third installment of the Mixtape Series!!!
